Dear Parents and Community,

As the principal of Date Elementary, it is my pleasure to welcome everyone back for another fantastic school year filled with promise. We look forward to providing our students with the best academic instruction in all core areas. It is our goal to help every child feel welcomed, connected, and part of the Date Elementary family. Additionally, we strive to challenge each student to grow in his or her academic abilities and to become prepared with college and career readiness skills. At Date Elementary we pride ourselves on having great teachers who spend hours planning and creating classroom activities and lessons that engage our students in learning. Our teachers utilize research-based best practices and analyze data to determine student current skill levels to set goals for growth and improvement.

Miki R. Inbody  
Superintendent
