LARK

Legal, Appropriate, Responsible, Kind

The Fontana Unified School District (District) supports instruction through the use of technology to provide students with access to people and material from all over the world. The District believes that information and interaction promotes educational excellence that is consistent with the goals of the District. To this end, the Board of Education encourages the responsible use of computer, telephone, and other electronic systems and resources (Information Systems) including the Internet, in support of the mission and goals of the District and its schools. The District complies with federal and state laws including, but not limited to, the Children's Internet Protection Act (CIPA), Neighborhood Children's Internet Protection Act (NCIPA), and Children's Online Privacy Protection Act (COPPA).

The District expects all students to use Information Systems, including the Internet, responsibly in order to avoid potential problems and liability. Efforts are taken to protect students from inappropriate materials, but it is impossible to completely protect students from material that is not consistent with District goals. The District may place reasonable restrictions on the sites, material, and/or information that students may access through the system.

The use of District Information Systems is a privilege, not a right. This privilege may be withdrawn if it is not used responsibly. Each student who is authorized to use District Information Systems and his/her parent/guardian shall sign this Acceptable Use Agreement on an annual basis as an indication that they have read and understand the agreement.
