In this workshop, participants will review important research findings about unconscious racial bias, its effects on our decisions and actions, and examine how these biases become embedded in our organizations and institutions. Participants will consider the ways in which unconscious racial biases effect outcomes in education – and specifically in school discipline. Finally, participants will explore strategies for first acknowledging and then reducing levels of implicit bias and discuss how we can adopt these to reduce racial inequality and bias in specific settings.

8-12

Virtual Training

Conduct follow-up sessions with trained personnel and other staff in the identification of implicit biases affecting site discipline decisions.

All Staff

Tier I Training-
New PBIS Schools

Almond

Introduces PBIS Tier 1 as a framework for creating a school-wide system that encourages positive behavior, provides a safe environment, and is inclusive of all students. Includes the "why, what, and how" of PBIS in both a traditional and virtual environment.
